CLOUTH PORTABLE - DOCTOR-CHANGE®

Easy change and quick cleaning.

Due to a sophisticated design and construction, the doctor blade can be changed or removed and re-installed while the machine is running.

Highly efficient

The individual docking station allows quick and easy access to the doctor blade.

Safe installation

A doctor blade guide prevents the doctor blade from being twisted or snagging during installation and improves work safety, while the doctor blade is being removed or re-installed.

Comfortable to use

Simple controls ensure simple and safe operation.

Easy Operation

Practical transport trolley with device-tray and safety accessories. This ensures that all materials are easily to hand and ready for use at any time.

DESIGN AND ACCESSORIES

- Main unit made of high-quality and temperature resistant aluminum
- Doctor blade tray made of a stainless steel tube, mounted on transport trolley*
- Robust transport trolley with storage tray and appropriate safety accessories*

* CLOUTH PORTABLE-DOCTOR-CHANGE® is individually adapted to the machine. Depending on the configuration it may differ in terms of feature and equipment and technical details.
Please note delivery and product description. Accessories only included when included on order.

„Finally, a safe alternative to having to shut down the dryer section!“

*Helmut Liesen, plant manager PM1
Papierfabrik Palm GmbH & Co. KG, Eltmann*
