

# COMBIFIBRE® T-250/100

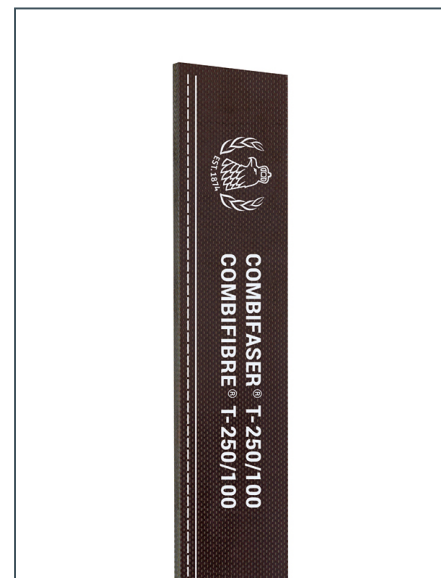

## Doctor Blade from advanced composite material

| MATERIAL  |                                |
|---|--------------------------------|
| Carbon fibre fabric with very high temperature resistant epoxy-resin System, very low coefficient of friction, extremely wear-resistant |                                |
| MATERIAL COLOUR   | black                          |
| LOGO COLOUR   | <input type="checkbox"/> white |
| BENDING STRENGTH  | up to 870 N/mm <sup>2</sup>    |
| TEMPERATURE RESISTANCE (TG)   | 250°C                          |
| CHEMICAL RESISTANCE   | very good                      |
| WATER ABSORPTION  | none                           |

| STANDARD DIMENSIONS*                                |                 |
|---|-----------------|
| THICKNESS mm (inch)                                 | WIDTH mm (inch) |
| 1.5 (0.060)   | 50 (2), 75 (3)  |
| 1.9 (0.075)   | 50 (2), 75 (3)  |
| * Other widths and thicknesses available on request |                 |

| KEY FEATURES                                  |
|---|
| Continuous length to individual specification |
| Single or double bevel                        |
| Bevel 20°                                     |
| Rebate or groove                              |
| Printed wear indicators                       |

| RIVETING  |
|---|
| Ready to use for all standard holder systems with appropriate rivets. |
