

CLOUTH® TOPSLIDE

Doctor Holder with carbon fibre top-plate for all doctor blade materials

KEY FEATURES

Top-plate special carbon fibre construction, available in different thicknesses, acid and heat resistant

Base plate stainless steel with integrated pivot for the top-plate

Available with the choice of CLOUTH-AIRFLEX® 100 or high temperature flexible pressure tubing CLOUTH-AIRFLEX® 230

Solid cast stainless steel fingers

ADVANTAGES

Quick removal of top-plate complete with fingers and tubes from either side of the machine

For beam mounting the base plate (with integrated adapter bar) is available with threaded stud bolts or tapped hole.

To reduce contamination of the doctor holder, the well-proven sealing systems of CLOUTH-CONTOUR®

Can be installed: Silicone seal at the back and at the front

No permanent deformation of the top-plate
